

SPIROVIT SP-1 G2

Portable spirometer with ultrasonic technology
Innovation for optimal lung care

SCHILLER
The Art of Diagnostics

SPIROVIT SP-1 G2

SCHILLERs SPIROVIT SP-1 G2 is the all-in-one solution in lung function testing portable/ desktop spirometry for large and small healthcare providers.

- ✧ Ultrasound technology: calibration-free, no warm up time, no moving parts.
- ✧ Real-time information on colour LCD

Note: The trolley is not standard and only for illustration

ULTRASOUND TECHNOLOGY

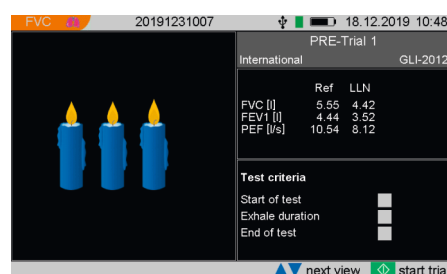

Thanks to GANSHORNs ultrasound technology, recordings are highly accurate and the sensor is maintenance- and calibration-free. Furthermore, the system is independent of gas composition, air pressure, temperature and humidity. The disposable ScoutTubes ensure maximum hygiene and patient safety.

DISPOSABLE AND SUSTAINABLE

To ensure a sustainable product, SCHILLER compensates the CO₂ emitted during production, packaging, shipment and disposal of the ScoutTubes.

REAL-TIME DISPLAY

The large colour LCD helps to ensure that the patient achieves a good result and the measurement is valid: information is displayed in real time, the spirometer provides feedback on the procedure's quality after each trial and an incentive screen is available for trials with children.

Incentive screen for paediatric spirometry

WIDE RANGE OF MEASUREMENTS INCLUDING INTERPRETATION

The spirometer offers FVC, SVC and MVV. Moreover, Pre and Post tests are possible. The SPIROVIT SP-1 G2 automatically interprets the results and provides information on a possible diagnosis. Results can be printed on site, using the integrated thermal printer.

AVAILABLE WITH TROLLEY

The SPIROVIT SP-1 G2 offers the major advantage of being able to perform spirometry wherever you are, without a PC. For added convenience, the system is also available with a trolley, which includes a bin for consumables such as ScoutTubes.

FVC, SVC, MVV, Pre/Post testing, wide range of predicted normal values

Export spirometry recordings from internal memory as PDF and store on external media

Colour LCD: information displayed in real time

High-resolution thermal printer

Ultrasonic sensor: calibration-free and maintenance-free

Highly hygienic sealed keyboard keeping dust, dirt and liquids out

Compliance with 2019 ATS/ERS Guidelines

Disposable ScoutTubes for maximum hygiene and patient safety

About SCHILLER

SCHILLER A. G., a company based in Switzerland, was founded by Alfred Schiller in 1974. Over the last 50 years, it has evolved into a successful Global Group with 31 subsidiaries and dealers across 30 countries. Today, SCHILLER is a world-leading manufacturer and supplier of devices for cardiopulmonary diagnostics, defibrillation and patient monitoring as well as software solutions for the medical industry.

Schiller in India was founded as a joint venture in 1997, and since then has established itself as a leader in the medical technology sector. With 450+ employees, a state-of-the-art ISO 13485-certified production centre in Puducherry, multiple R&D centres, and 17 offices across India; Schiller makes advanced healthcare equipment accessible through a network of 100 sales and service dealers across more than 45 locations. Our product range includes Critical Care, Anaesthesia, Emergency Care, Cardiology, Respiratory Diagnostics, Radiology, and Robotics.
