

Aeon 8100A

Anaesthesia Workstation

SCHILLER
The Art of Diagnostics

Accurate

Facilitates the effective administration of anaesthesia and promotes smooth recovery

Adaptable

Adaptable to diverse patient demographics and surgical interventions

Reliable

SCHILLER's legacy continues to thrive with over 50 years of innovation & trust

The **Aeon 8100A** anaesthesia workstation is an advanced solution designed for adults, paediatric, and infant patients. It features a versatile 3-gas system supporting low-flow anaesthesia, ensuring precise and efficient delivery. The integrated ventilator and spirometry loops enhances functionality and safety, making it a reliable choice for diverse anaesthetic needs.

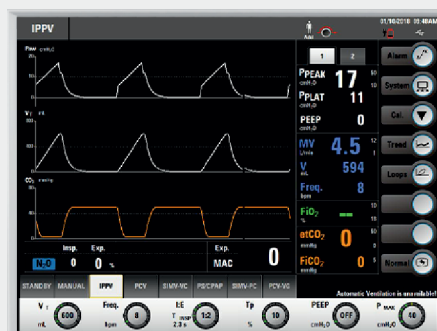

Advanced Magnesium Alloy Breathing System

- ❖ Safe, stable and efficient anaesthesia management
- ❖ An adjustable angle, easy installation and the user-friendly design makes maintenance easier
- ❖ The integrated heating system with better thermal conductivity helps prevent condensation and make patients feel more comfortable
- ❖ APL with fast release pressure, the pressure limit is accurately adjustable avoiding repeated operations and improving anaesthesia efficiency
- ❖ The breathing circuit has CO₂ bypass function

Ventilator Graphical User Interface

- ❖ **Accurate and Stable Tidal Volume Delivery:** 20 - 1500 mL range with precise 20 mL control
- ❖ **Precise Measurement:** Compliance, fresh gas, altitude, and leakage compensations ensure delivered volume matches set value
- ❖ **Easy Identification:** Color-coded parameters for quick identification of ventilator settings
- ❖ **Comprehensive Display:** Synchronized pressure, flow, and volume waveforms on the same screen
- ❖ **Quick-Access Ventilation Modes:** Fast selection and changes with quick-access keys

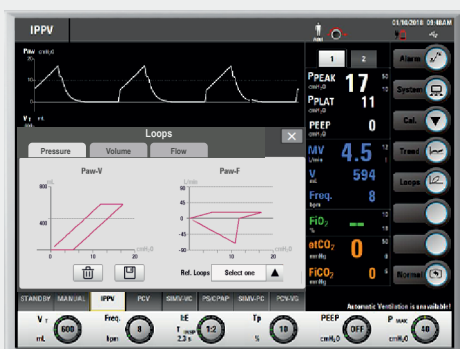

Display

- ❖ Featuring a spacious 10.4" touch screen
- ❖ Adjustable display allows for optimal viewing angles without needing to move the entire device
- ❖ Convenient rotary knob for effortless selection and adjustment

Spirometry Loops

Pressure-Volume Loop

Volume-Flow Loop

Pressure-Flow Loop

Data Storage Capabilities

- ❖ **Comprehensive Recording:** Capture alarms, events, and trends for thorough monitoring
- ❖ **Parameter Storage:** Stores upto 17 parameters for detailed analysis
- ❖ **Extended Trend Storage:** Maintains trend data for upto 30 days
- ❖ **USB Export:** Easily imports data to USB devices for convenient access and review

SCHILLER, founded in 1974 by Alfred E. Schiller is a successful group with 30 subsidiaries and a global sales network. Today, SCHILLER is a world-leading manufacturer and supplier of devices for cardiopulmonary diagnostics, defibrillation and patient monitoring as well as software solutions for the medical industry.

Over the last 27 years, SCHILLER has established itself as a leader in the medical technology sector in India. With 400+ employees, two production centres and a R&D facility SCHILLER makes state-of-the-art healthcare equipment accessible through a network of 100 sales & service personnel spread across more than 45 locations. Our product range covers Critical Care, Anaesthesia, Emergency Care, Cardiology, Pulmonology, Radiology and Robotics.
