

CereTom[®] Equipped Mobile Stroke Unit

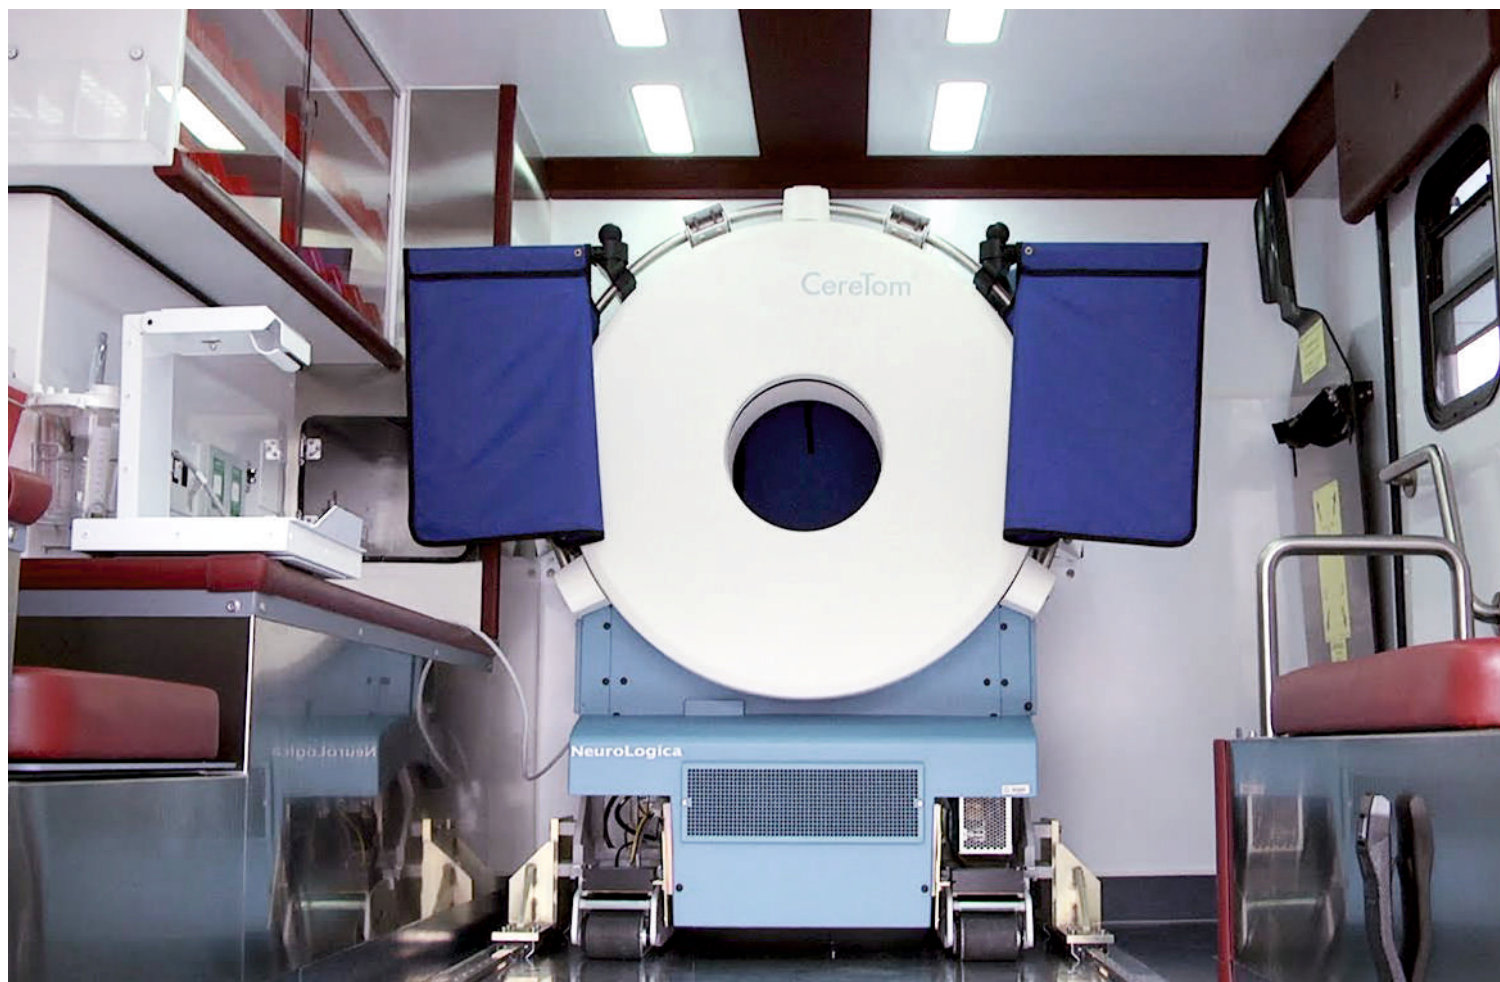

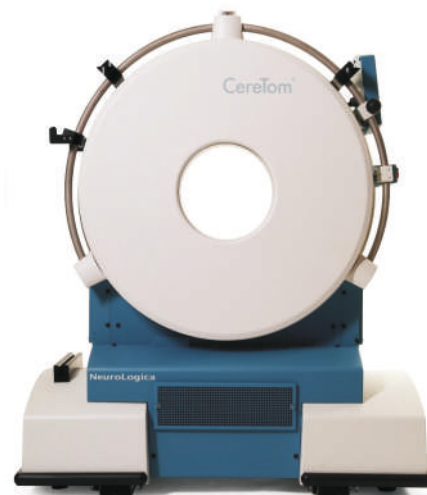

An innovation in pre-hospital stroke treatment

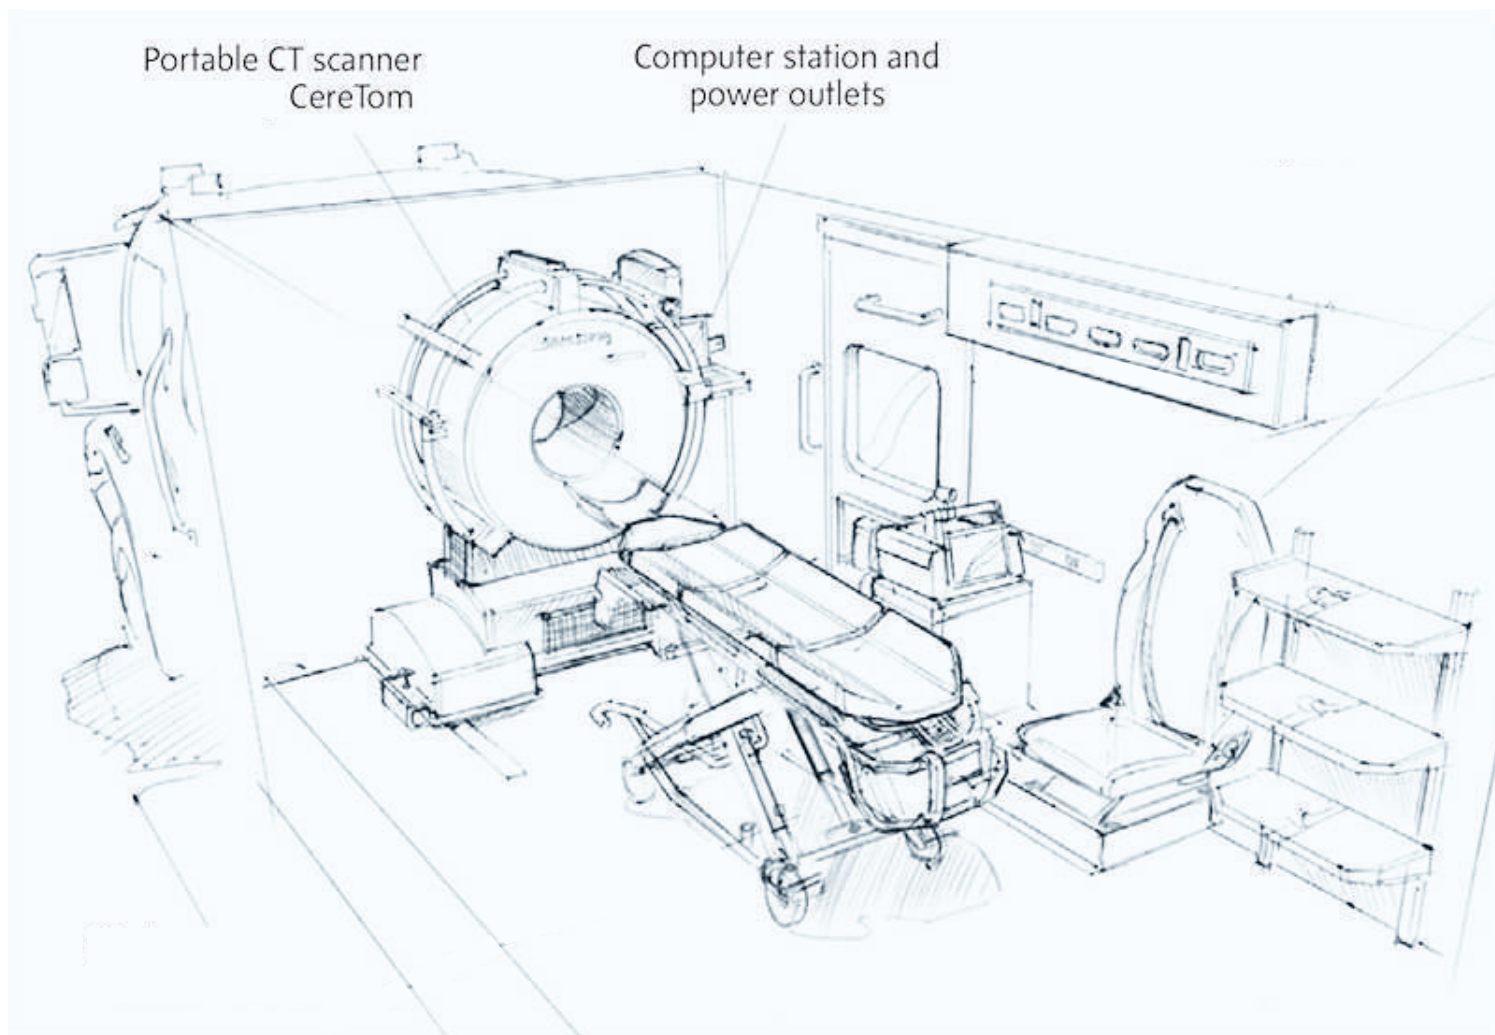

SCHILLER
The Art of Diagnostics

Mobile Stroke Unit

- A specialized ambulance with a Portable CT “CereTom” and laboratory equipment essential for the diagnosis
- Designed to bring time-critical stroke care to patients on the way to the hospital

AMBULANCE SETUP

Mobile Stroke Unit - by SCHILLER

EASY PULSE®

- Efficient and Compact Cardiac Resuscitation Device.
Thanks to Technological Innovations.
- Unbelievably small and light
 - Portable and stand-alone
 - High-quality and uninterrupted chest compressions, performed automatically at a consistent rate and depth, also during transport
 - Perform 30:2 compression-ventilation cycle

About SCHILLER

SCHILLER A. G., a company based in Switzerland, was founded by Alfred Schiller in 1974. Over the last 50 years, it has evolved into a successful Global Group with 31 subsidiaries and dealers across 30 countries. Today, SCHILLER is a world-leading manufacturer and supplier of devices for cardiopulmonary diagnostics, defibrillation and patient monitoring as well as software solutions for the medical industry.

Schiller in India was founded as a joint venture in 1997, and since then has established itself as a leader in the medical technology sector. With 450+ employees, a state-of-the-art ISO 13485-certified production centre in Puducherry, multiple R&D centres, and 17 offices across India; Schiller makes advanced healthcare equipment accessible through a network of 100 sales and service dealers across more than 45 locations. Our product range includes Critical Care, Anaesthesia, Emergency Care, Cardiology, Respiratory Diagnostics, Radiology, and Robotics.

Technical Specifications of Mobile Stroke Unit

The CereTom Portable CT Scanner

- The CereTom is an 8-slice CT scanner that delivers the highest quality non-contrast, angiography and contrast perfusion scans in any patient location
- Its combination of rapid scan time, flexible settings and immediate image viewing, makes it an indispensable tool to any clinician needing real time data on critically ill patients.
- Rapid triage and management of patients with acute neurological symptoms are key elements to emergency room care.
- The CereTom Portable CT scanner is a complete scanning tool for neurological emergencies including stroke, haemorrhage and traumatic brain injuries.

CereTom Imaging Station

- The CereTom Imaging Station has advanced visualization software allowing for 2D, 3D and MPR viewing.
- The workstation produces DICOM 3.1 compliant images and with the modality worklist module, allows for seamless integration with PACS.
- With its wireless communication capability, the CereTom stands ready to interface into the modern hospital information technology age.

CereTom®

8 Slice True CT Scanner

- Complete self contained lead shielding
- On-board 10" LCD touch screen
- DICOM 3.1 images compliant with CereTom modality worklist module
- Integrates with all PACS 1.25, 2.5, 5, 10 mm slice thickness
- Compatible with all patient trolleys
- Integrates with all Telemedicine & Tele conferencing software

Laptop Imaging Computer with 17" high-resolution Monitor

- Hardware: Processor
 - Intel® Core™ 2 Duo Processor 2.2 GHz
 - Memory: 4 GB
 - Hard drive: 250 GB
 - Monitor resolution: 1920 x 1200
- Advanced Visualization Software Package
 - Software: 2D, 3D
 - MPR viewing

AMBULANCE

Fabrication

- RTO Approved Ambulance Shielding as per AERB, Gov. of India
- Radiation warning symbol will be displayed on the ambulance
- Ambulance chassis will be mounted with base plate for CT installation with locking – Docking system.
- Power generator installed to support CT, AC, Lights & Standard ambulance accessories for medical Emergency
- Ambulance equipped with patient trolley with radiolucent head board adaptor
- Lead viewing glass for operator : to monitor patient during CT scan
