

TRUSCOPE CNS

TRUSCOPE CNS is an advanced central monitoring system that offers real-time patient data access, supports up to 64 beds, and supports upto four screens for optimal critical care monitoring.

Waveform Freezing: Easily freeze waveforms for detailed analysis and review

Seamless Bed Switching: Effortlessly switch between different beds for streamlined patient monitoring

Versatile Screen Options: Choose from various display modes

240 hours ECG Summary: Provides a comprehensive ECG summary over a 240 hours period for better diagnostic insights

MOBILE CARE STATION : REMOTE VIEW

- ❖ Designed for the android device of your choice, this solution empowers clinicians to monitor real-time patient data from anywhere. With secure, web-based access, it delivers seamless remote monitoring, putting critical information at your fingertips, anytime, on any device.
- ❖ Static IP required

COMPREHENSIVE DATA REVIEW

Advanced data tracking with waveform freeze for precise, real-time insights.

SYNC STATION: EXCELLING IN MULTI-BED PATIENT MANAGEMENT

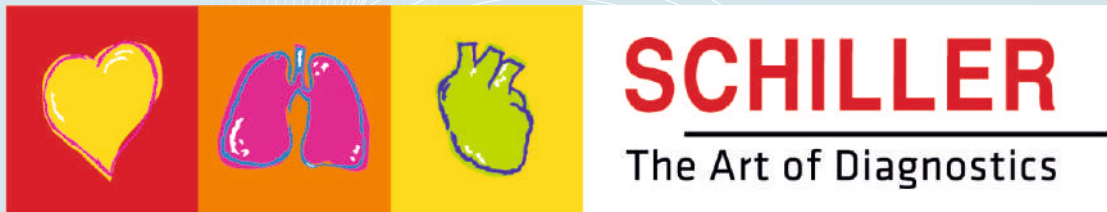

Advanced sync station which supports multiple displays, manages up to 64 beds, and smartly auto-adjusts the resolution for optimal viewing.

64

**Up to 64 Beds Monitoring
and 4 Screens Display**

About SCHILLER

SCHILLER A. G., a company based in Switzerland, was founded by Alfred Schiller in 1974. Over the last 50 years, it has evolved into a successful Global Group with 31 subsidiaries and dealers across 30 countries. Today, SCHILLER is a world-leading manufacturer and supplier of devices for cardiopulmonary diagnostics, defibrillation and patient monitoring as well as software solutions for the medical industry.

Schiller in India was founded as a joint venture in 1997, and since then has established itself as a leader in the medical technology sector. With 450+ employees, a state-of-the-art ISO 13485-certified production centre in Puducherry, multiple R&D centres, and 17 offices across India; Schiller makes advanced healthcare equipment accessible through a network of 100 sales and service dealers across more than 45 locations. Our product range includes Critical Care, Anaesthesia, Emergency Care, Cardiology, Respiratory Diagnostics, Radiology, and Robotics.
